

# VEANNE LUPIA

I was born in Portland Oregon and lived there until I moved to New York City. I met my husband in New York and he moved me to El Paso, TX. When I saw it, I told my Mom that it look like the moon. We lived in El Paso for about 20 years. My daughter, Sara, was born in 1980.

I have always believed in volunteering! I was the Junior League of El Paso President and volunteered for the American Cancer Society. I served on the Texas State Board of the Cancer Society in Austin for 4 years.

I moved to Dallas and worked for a company that had the patents for streaming audio and

streaming video. We were a company ahead of our time. When the company moved to New York, I came to Tucson. My daughter and I had been coming to Tucson for years, to visit my sister, Jean Reehl. The family was almost together. We still have one brother living in Portland.

My daughter moved here after college. She is married to Mark, and they have the love of my life, my grandson, Cameron, and are soon to have another baby in August 2013.

I enjoy working at Tanque Verde Lutheran Church and volunteering for the Food Ministry. God Bless Us All!
